

Organized by
Department of Computer Science and Engineering,
Rajiv Gandhi Salai (OMR), Kalavakkam – 603110, Tamil Nadu, India

CONVENORS

- Dr. Shiv Nadar, Founder, SSN Institutions, **Chairman**
- Dr. P. Ramasamy, **Dean of Research, SSNCE**
- Dr. S. Radha, **Principal, SSNCE**
- Dr. T. T. Mirnalinee, **HOD, CSE, SSNCE**

COORDINATORS

- Dr. Ahana Priyanka, **Assistant professor**
- Dr. R. Sneka Nandhini, **Assistant professor**
- Dr. Neeraja R, **Assistant professor**

IMPORTANT DATES

Notification of Acceptance

March 17, 2026

Full Paper Submission

March 22, 2026

REGISTRATION FEE - 500/-

ABOUT THE CONFERENCE

The Department proudly presents the National Conference on Generative AI-Driven Edge Intelligence (NCGAEI-2026), scheduled to be held on March 26th, 2026. This national-level conference aims to serve as a dynamic academic forum dedicated to exploring recent advancements, emerging paradigms, and future directions in Artificial Intelligence, Edge Intelligence, and Intelligent Computing systems. NCGAEI-2026 is committed to fostering a collaborative platform that brings together academicians, researchers, industry experts, and practitioners to exchange innovative ideas, share cutting-edge research findings, and discuss real-world applications of intelligent and edge-enabled technologies. The conference emphasizes the integration of AI with edge computing to address challenges in scalability, security, real-time decision-making, and resource efficiency across diverse domains. Through keynote addresses, technical paper presentations, and interactive discussions, NCGAEI-2026 seeks to inspire meaningful research collaborations and contribute to the advancement of next generation intelligent systems.

TOPICS

- Future Trends in Intelligent Computing and Smart Technologies
- Emerging Paradigms in AI, Edge Intelligence, and Advanced Computing
- Quantum Computing and Quantum-Inspired Techniques for Intelligent Systems
- Intelligent Systems for Smart Cities and Cyber-Physical Applications
- Secure and Intelligent Healthcare Applications Using Generative AI at the edge

SPEAKERS

Dr. Rajesh,
Associate professor,
Department of Information
Technology, Anna university,
chennai

Dr. Sabique PV,
Founder & CEO at PixelBotix,
EdRobopreneur,
Ph.D in Robotics,
chennai
